

The top half of the page features a photograph of an offshore oil rig at night. The rig is illuminated with warm yellow lights, contrasting with the dark blue and purple twilight sky. The rig's complex structure of steel beams, pipes, and cranes is visible, extending into the dark sea. The AVEVA logo is positioned in the top left corner of this image.

PROGRAM GUIDE

AVEVA Customer FIRST for Your Asset Performance Management Software

Build, support, maintain, and evolve your systems
with industry-leading software maintenance,
support, and success services

About AVEVA

AVEVA creates industrial software that inspires people to shape the future. We believe industry advancement should enhance the human experience. That is why we work hard to empower the people behind digital transformation to get ahead of what is next. Our comprehensive software portfolio provides everything you need to improve your asset and operations lifecycles. With our integrated solutions, you can knock down informational silos and drive increased collaboration across your business.

We put the Cloud, IoT, AI, and virtual reality to work for you in powerful ways. We carefully analyse how the latest innovations can be included in your business without disruption and offer seamless solutions that deliver meaningful results. Our end-to-end portfolio of innovative engineering and industrial software solutions make assets and operations safer, more effective, and more sustainable. From water and energy to food and infrastructure, our solutions turn opportunities into business value.

Engineer, Procure, Construct

Our integrated engineering and design solutions lower the cost, time, and risk of capital project engineering and execution.

Asset Performance

Our APM solutions increase asset longevity and performance while ensuring a safe, reliable working environment.

Monitor and Control

The most flexible, open industrial HMI and SCADA solutions in the world empower your decision-makers to think boldly and advance smartly.

Plan and Schedule

Maximise production profitability with planning and operations solutions that optimise supply chains and manufacturing.

Operate and Optimise

Leverage tools that eliminate inefficiencies to synchronise production and operations with business goals.

AVEVA's Asset Performance Management Solutions

Digital transformation unlocks the potential of your assets and empowers you to adopt predictive maintenance (PdM) strategies. With the ability to look ahead, you can prevent costly failures, reduce downtime, and focus on shaping what's next. Our comprehensive Asset Performance Management (APM) software portfolio is designed to overcome today's industrial challenges by leveraging industrial big data, Cloud, artificial intelligence, digital twin, and augmented reality. With improved analysis, you'll eliminate inefficiencies, optimise operations, and improve profitability.

Customer FIRST helps you get maximum value from our APM solutions that include:

- Asset Information Management
- Augmented Reality for Operations and Maintenance
- Condition Management
- Control of Work
- Enterprise Asset Management
- Mobile Operator Rounds
- Monitoring and Diagnostic Services
- PRiSM Predictive Asset Analytics
- Risk-Based Maintenance

100s
of millions saved with
predictive analytics

30%
reduction in
maintenance costs

25%

efficiency

25%
reduction in
unplanned downtime

About AVEVA Customer FIRST

AVEVA Customer FIRST is not just a cliché, it is a mantra that drives our everyday efforts to put our customers first – ensuring their overall success with our software is essential. We strive to deliver innovative, market-leading software coupled with a wide range of services and resources. The program is the foundation of your service and support relationship with AVEVA and our global partner network. It offers a comprehensive portfolio of services, including software version upgrades and maintenance, expert technical support, and success-based services to help you get the most value possible from your investment in our software and keep your business operations running smoothly from the application of AVEVA products. The program ensures that you get:

- Continuous software maintenance and innovation through version upgrades to keep your software “state-of-the-art” so you can respond quickly to challenges and opportunities
- Access to technical support experts to accelerate time to value and to quickly remedy any technical issue that you experience as you install, fine-tune, and upgrade your software
- Optional services and resources to drive user adoption and increase productivity, efficiently maintain and optimise the performance of your software, and meet your changing business needs

With Customer FIRST, you get a continuum of investment protection and value with a program designed to proactively help make sure you are getting the most out of your software and successfully doing all you can to optimize your work processes with our Asset Performance Management software, regardless of the lifecycle phase that software and solution is in.

Protect Your Asset Performance Management Software Investment

While your Asset Performance Management software investment may be substantial, it is only a fraction of your overall investment when you consider everything else involved in your project and the benefit to your business from your AVEVA software over time. Customer FIRST delivers in a number of critical ways to help you get the most value from your software.

- **Software Version Upgrades and Maintenance**
 - We encourage our customers to continuously innovate and harness the latest capabilities of our new versions that push the envelope of current technology. Our Asset Performance Management software is regularly upgraded to assure reliability, performance and security, to embrace new technology and standards, and to provide new functionality to meet evolving market demands. We have an unparalleled history of investing in software development, and customers using our software can maintain and extend their engineering investment and upgrade from one version to the next. We are very proud of this deliberate effort as it provides a cost-effective approach for our customers to keep their software current without significant future capital and engineering costs.
- **Access to Exceptional Global Technical Support** – Our customers have specific business objectives and responsibilities that rarely include troubleshooting

industrial software technical issues. Customer FIRST provides streamlined access to support experts who have years of experience supporting diverse installations around the world. They are adept at understanding potential software implementation issues, replicating any problems and resolving them quickly. You also get access to extensive online, 24/7 self-help including a vast knowledgebase of technical tips, tools and best practices, and dedicated and collaborative web portals. With the Customer FIRST program, you can leverage our vast software experience and expertise to reduce operational risk, minimize downtime, save time and money, and proactively meet key targets and objectives. For our larger customers, we can provide a designated Technical Account Management team to take full accountability for your technical support activity and AVEVA escalation, overseeing your support issues all the way to resolution.

- **Customer FIRST Apps** – Our Apps bring AVEVA Asset Performance Management software resources to you, wherever you are, via mobile devices. You can use them to quickly access your support agreement, log and track service requests for convenient case management, learn new technical tips, and stay current on support-related events and software news.

AVEVA Customer FIRST Included Services

Our customers are increasingly purchasing diverse offerings from across our software portfolio, so Customer FIRST now focuses less on individual

products than in the past. The program features core included services and entitlements that apply across our suite of offerings.
